Acceptance Test Procedure

Step	Procedure	Expected Results	Actual Results	✓ or AI
1	Run main.py	Opens GUI window with question 1 displayed on screen		
2	Press Button A	Cycle to next question, and return new rating value		
3	Press Button B	Cycle to next question and return new rating value		
4	Cycle through all 19 questions	Questions cycle through with each button press and the choices match with the question		
5	Reaches end of question list	Program stops at 'congrat' window, does not cycle through anymore questions		
6	Exit program	Program can be exited by closing window
